Ketchikan Gateway Borough Office
1900 1st Avenue,
1st Floor Conference Room**

**YOUR
COMMENTS ARE
GREATLY
APPRECIATED**

Alaska Department of Transportation & Public Facilities (DOT&PF) proposes federally funded projects that would make improvements to the Revilla & Gravina Island Shuttle Ferry facilities.

The public is invited to an open house and design workshop on the proposed Revilla Airport Shuttle ferry facility improvements.

DOT&PF in cooperation with the Ketchikan Gateway Borough (KGB) intends to construct new ferry berths at both the Revilla & Gravina Airport Shuttle Ferry Facilities, and construct associated upland improvements to enhance the reliability, function & comfort of vehicle and pedestrian traffic to and from the Ketchikan Airport.

DOT &PF representatives & their consultant teams will be on hand to present an overview of the projects & facilitate a public workshop to explore & develop concepts for further design.

The workshop will allow residents to actively participate & convey ideas to the project team. These projects are funded by FHWA.

This public meeting is intended to inform the public of the projects and meet with local residents and stakeholders to seek comments and design input associated primarily with the Revilla side upland improvements.

The Revilla Uplands Project is expected to

- Expand parking
- Provide a new passenger waiting building
- Improve vehicle and pedestrian access ways
- Make improvements to Tongass Highway

NOTE:

More information is available at the project webpage
